"Abyss" part three! The new Batman Inc.’s heinous crimes have landed them in a high-security prison. Batman believes the only way to help his old allies is to break them out...but they don’t want his help! Meanwhile, Batman Inc.’s mysterious benefactor uses the chaos to enact their plans, but finds themselves lost in the dark against Abyss!

Backup: The mysterious disappearances being investigated by Maps and Batman take a violent turn...Could this missing persons case be something much darker?
Psycho-Pirate! Qu’est-ce que c’est? The mind manipulations of one of the DCU’s most calamitous villains are revealed at the heart of Arkham Tower…but who’s really calling the shots? As Batwoman’s undercover operation takes a disastrous turn, Huntress finds her own mission inside the Tower growing more perilous by the moment! All is revealed in this explosive first chapter in act two of the “Shadows of the Bat” weekly event!

Then, in “House of Gotham” part five, the Boy emerges from his Scarecrow caper with a new perspective on the world…but what’s scarier: Dr. Crane’s fear toxins, or Batman’s control of Gotham’s militarized youth?

“His hold is breaking!” That’s the message written in blood across the minds of Arkham Tower’s inhabitants, after a nightmare melee is unleashed! With Gotham’s deadliest criminals reverting to their former, murderous selves in one horrific night, Dr. Wear has a lot of explaining to do…and a lot of covering up to perform. Can Nightwing get to the bottom of this mystery before the people of Arkham Tower are put in peril again? Plus, Batman’s iron grip on Gotham is enough to drive the desperate to madness…and madness is on the mind of the Boy in part six of “House of Gotham.” When an average night at coat check at the Iceberg Lounge turns into a violent battle royal between the Dark Knight and the Penguin, lines are blurred, people are hurt, and the Boy’s descent into a life of crime deepens...
War in the streets! As Dr. Wear desperately tries to keep his plans for Arkham Tower from crumbling, a major drug deal gone bad puts the nervous doc in the sights of both the Party Crashers and the Penguin! The list of people very badly wanting to kill Dr. Wear grows, and Nightwing is on the precipice of cracking the whole scheme wide open! But with the maniacal Party Crashers waging war against the Bat-Family across Gotham, Dick must choose between helping a tower full of villains and helping his family!

Then, it's Knightfall in Gotham during part seven of "House of Gotham," as the Boy (growing into a man before our eyes) runs afoul of an uber-violent, unhinged Azrael Batman! This latest conflict pushes Gotham's most vulnerable into madness, and one man's rogues gallery reveals itself as another man's salvation.

DETECTIVE COMICS #1054
It's Nightwing versus Psycho-Pirate in the grand finale of "Shadows of the Bat" act two of three! As Gotham's elite gather to celebrate the formal opening of Arkham Tower, Dr. Wear's secret weapon is more unhinged than ever, and the storm clouds of disaster gather above the city's monument to reform! The Party Crashers, the Bat-Family, Penguin's forces, and a tower full of innocent civilians and villainous patients converge in the chapter you'll need to see to believe! Spoiler alert: not everyone makes it out alive!

Every story has two sides, and as much as Batman has reached out his hand through the darkness to try to help the Boy, there are too many hands in the shadows of Gotham pulling in the other direction. The finale of act two of "House of Gotham" poses a stark choice: live with the family you know, or betray everything you've learned to be true!
Mary Bromfield has always struggled to determine who she is outside her family...kinda hard to do when you're all superheroes! Now, after Billy Batson's heroic sacrifice, the power of Shazam has vanished, and she's been left powerless.

Most heroes would be distraught, but not Mary. It's finally time for a voyage of self-discovery as she prepares for her freshman year of college and a civilian life. But nothing is ever truly normal for this young hero, because she's just been chosen as the new champion of Shazam! (At least according to a talking rabbit sent by her estranged brother Billy.) Will she embrace the power? Or will it die alongside this world's hope of survival against the mysterious magical forces waiting to take control?

Find out in Mary's first solo miniseries, brought to you by up-and-coming comics writer Josie Campbell (Future State: Green Lantern) and fan-favorite Shazam! artist Evan “Doc” Shaner (Strange Adventures, Convergence: Shazam!)

Dive deeper following the thrilling conclusions of Aquaman: The Becoming and Black Manta!

When a terrorist in Middle America is revealed as an Atlantean sleeper agent seemingly gone rogue, the Aquamen—Arthur Curry and Jackson Hyde—are on the case. But it soon becomes clear that the tragedy was not just a single bad actor, but the beginnings of a much larger and more dangerous chain reaction...and the heart of an explosive Atlantean conspiracy! If Arthur’s not careful, the secrets he’s keeping—from Mera, Tula, Tempest, Atlantis, the surface, and even Jackson—could cause a rift from which the Aquamen might never recover!
Introducing the newest hero in the DCU, the great sage, equal to the heavens, better than his predecessor the legendary Monkey King, even better than the Justice League—and definitely the Teen Titans—(actually, all the heroes combined), everyone put your hands together for...the Monkey Prince!

Marcus Sun moves around a lot because his adoptive parents are freelance henchpeople, so this month he finds himself as the new kid at Gotham City High School, where a mysterious man with pig features asks Marcus to walk through a water curtain to reveal himself as who Marcus really is...someone who has adventured through *The Journey to the West*, can transform into 72 different formations, can clone himself using his hairs, and is called...the Monkey Prince!

The attacks begin without warning. Brutal, sudden...cannibalistic. A metahuman with all the power of Superman but none of his humanity. An unstoppable being ruled only by hunger and instinct, striking at random across the world.

To stop this threat, Harley Quinn, Peacemaker, Captain Boomerang, and King Shark have been assigned to corral, nursemaid, and if necessary execute five deadly new recruits: the expendable products of a secret government procedure called BLAZE. They're ordinary prisoners, endowed with incredible power...and the certain knowledge that it'll burn through them like wildfire. They have six months to live, maximum. If you're staring down life in prison, maybe that's a good deal—especially if you're Michael Van Zandt, desperate to reunite with the mad lover who forsook you after your Bonnie-and-Clyde crime spree.

But that power? It's surprisingly transferable. As each member of the Squad dies...the others get stronger. What would a hardened criminal do with that knowledge? Worse yet: What would a desperate, lovesick idiot do with it? One thing's certain: this time the Suicide Squad's bitten off more than it can chew. Win or lose—they all burn.

Simon Spurrier and Aaron Campbell, the creative team behind the critically acclaimed John Constantine: Hellblazer, have been turned loose on the one DC title even more horrific and blackhearted than that one! We suggest you brace yourselves...
